

Regional networks

The CEC also runs some informal open e-mail groups for members in regions without an established branch, to encourage networking and the sharing of experience:

- Austria
 - Germany
 - Italy
 - Spain
 - Switzerland
- The idea is to provide an easy way for NUJ members in the same region to get in touch with each other, exchange information, ask questions of each other, share experiences, maybe even organise the occasional social drink. The groups are administered through Yahoo! Groups.
- If you would like to join one of these informal regional e-groups, please contact the CEC:
